

ECORAIN™ TANK SYSTEMS CASE STUDY

Men's Warehouse

Santa Monica, CA

Our first commercial underground storm water detention tank installation is still in service. Installed in 2003, it was a trial for the City of Santa Monica—a trial that has withstood the test of time.

- Installed November/December 2003
- Still working as designed.
- 425 Cubic Feet water storage — rain collected from roof and parking lot.
